INCREASE OUTPUT OF CONSUMERS' GOODS

SUGAR FACTORIES BEGIN PRODUCTION -- Budapest, Kis Ujsag, 16 Sep 50

Following the lead of the Szolnok Sugar Factory, the other beet sugar factories of the country will soon begin production. Workers of the Sarkad Sugar Factory began production in the past few days, using new production methods. The plant is now turning out 250,000 kilograms of sugar per day.

The Mezohegyes Sugar Factory is to begin producing 280,000 kilograms per day on 18 September and on 21 September, the Szerencs Sugar Factory, one of the largest in the country, will begin daily production of 300,000 kilograms of beet sugar.

BACS KISKUN COTTON-PROCESSING PLANT BEGINS PRODUCTION -- Budapest, Szabad Nep, 28 Sep 50

The first cotton-processing plant in Bacs-Kiskun Country has begun operation at Kisszallas. The new plant will perform the preliminary processing of all the cotton grown in the county. It is estimated that 40 carloads of cotton will be received at the plant this year. A quintal of cotton will yield 600 meters of cotton fabric and $3\frac{1}{2}$ kilograms of cotton wadding, 21 kilograms of oil cake, and 14 kilograms of fine oil as by-products. The plant will process material for approximately 2,800,000 meters of cotton goods this year.

TEXTILE COMBINE CALLS FOR NATIONAL COMPETITION -- Budapest, Szabad Nep, 30 Sep 50

Workers of the Szeged Textile Combine called for a national production competition in the textile industry. Workers of the plant pledged to save 24,000 kilograms of raw material during 1950, corresponding to a saving of 213,000 forints, and to produce 147,800 kilograms of thread above the plan. The workers also pledged to reduce production costs 4 percent per kilogram, resulting in a

yearly saving of 429,000 forints, and to effect other savings by economic use of raw material and conservation of waste. They also stated that through a concerted effort in the textile industry, the spinning mills can produce 450,000 kilograms of thread and the weaving mills can produce 3 million meters of cloth above the amounts planned for 1950.

411,000 MEN'S SUITS MORE THAN LAST YEAR -- Budapest, Vilagossag, 30 Sep 50

In the first 8 months of 1950, the clothing industry manufactured 1,276,000 shirts, 411,000 men's suits, 546,000 work clothes, 299,000 "balloon" outfits [coveralls?], and 186,000 womens dresses more than in the same period last year.

FIGSKIN COATS IN INNOVATION EXHIBIT -- Budapest, Friss Ujsag, 30 Sep 50

Workers of the Dismuborgyar have submitted many innovations to the Second National Innovation Exhibition. Among them are coats, drumheads, and gloves made of pigskin, and industrial parchment made of lambskin. Coats had previously been made of imported sheepskin. The new process will save 1½ million forints per year of foreign exchange.

SIGNIFICANT INCREASE IN SHOE PRODUCTION -- Budapest, Vilagossag, 27 Sep 50

In the first 8 months of 1950, the production of men's shoes exceeded the planned figure by 46 percent, and the production of women's shoes exceeded the schedule by 62 percent. The manufacture of children's shoes was 136 percent greater than during the corresponding period last year.

PAPER FACTORY HIKES CELLULOSE OUTPUT -- Budapest, Friss Ujsag, 28 Sep 50

The production of the Csepel Paper Factory is increasing from month to month. Production plan fulfillment in the second quarter of 1950 was 98.4 percent, in July 101.6 percent, and in August it was 107.6 percent. This increase is due to a large extent to the fact that the production of the cellulose plant increased 30 percent in the last few months.

TOBACCO PLANT SAVES RAW MATERIAL -- Budapest, Nepszava, 16 Sep 50

The Eger Tobacco Factory is leading in the raw material conservation program in the tobacco industry. During August, for example, raw material equivalent to 289,000 cigars was saved at the Eger Factory.
